- Access to state laws regarding marijuana
- Access to sample campus policies
- 1 Q&A session using Google Hangout with a leader in the field
- Downloadable anti-drugged driving campaign materials
- Latest Research
- Technical Assistance

CANNABIS LEARNING COLLABORATIVE

The Cannabis Learning Collaborative was developed by the Higher Education Center to offer a compact and accessible course on the challenges that face colleges and universities due to the use and misuse of cannabis. The legalization status of many states has changed, or is subject to change in the coming years, and it is imperative we stay informed and prepare for additional responsibilities to our students.

INVESTMENT
OCI Member: Free
Non Member: $100

Fee provides campus-wide access to all benefits outlined through a password protected portal. Access to content does not expire.
