Successful submissions will be informed by theory, research, or practice: reflect innovation and cutting edge ideas and programming, present best-practice implementation steps and whenever possible have been evaluated within an implementation science framework.

Sessions should target new, mid-career, and seasoned professionals. The CEs will result in an array of presenters and perspectives, including different expertise, different levels of experience, and a variety of organizational types.

Submissions should align with one of the following experience levels:

- **100 Level**: Introduction. These sessions are best for professionals with less than 3 years of experience and assume attendees have some basic knowledge of concepts provided.
- **200 Level**: Intermediate. These sessions are best for professionals with 4-6 years of experience of clinical therapies, addiction & prevention services, supervision & ethical practices.
- **300 Level**: Advanced. These sessions are best for professionals with 6 or more years of experience with clinical therapies, addiction & prevention services and/or supervision & ethical practices.

Trainings will take place January 2021- September 2021, with 4 trainings taking place each month. Trainings should be at least 1 hour in length and should not exceed 3 hours (there may be some exceptions). Presenters should allocate 15 minutes for questions. All trainings will be held virtually through Zoom. Each presenter with be assigned a moderator & should be available for a technology check the day before their presentation.

Proposals can be submitted to [https://go.osu.edu/behavioralhealthtrainings](https://go.osu.edu/behavioralhealthtrainings).
